CAREER SUMMARY: Jr. Java Developer with 2 plus years of IT experience in different phases of SDLC such as analysis, Design, Implementation, Testing and Maintenance of Web Based application using Object Oriented Client-Server technologies. My journey so far has involved building a strong foundation in these technologies, with a focus on creating scalable and efficient Java applications. My objective is to contribute to a team that values innovation and continuous improvement, where I can make a tangible impact while honing my skills in backend development and database management.

EXPERIENCE

TANASVI TECHNOLOGIES PVT LTD   Remote
Junior Software Engineer   Nov 2022 - Present
   -Involving in the complete software development life cycle including requirement analysis, design, implementation, testing and maintenance.
   -Participating in scrum meetings as part of iteration development process.
   -Successfully identified and resolved approximately hundred bugs, demonstrating strong problem-solving skills and attention to detail.
   -Implementing the backend business layers using spring and web services.
   -Designing and implementing the customized exception handling to handle the exceptions in the application.
   -Experience with Redis as a caching and session storage solution, enhancing application performance. Using this improved end users experience and faster data fetching.
   -Configured swagger application programming interface for application documentation.
   -Data Validation using annotations
   -Participated in regular code reviews, enhancing coding standards and best practices within the team.
   -Worked collaboratively in a team setting, contributing to various phases of the software development cycle while following agile methodology.

DOTPE PVT LTD   Gurugram
Associate Technical Consultant   May 2022 – Nov 2022
   -Implemented coupons for the offer for festivals season.
   -Resolved minor bugs in documentation creation.
   -Helped in implementing new features and schemes for the existing services.

TECHNICAL SKILLS
   -Proficient in Java programming, with a focus on backend development.
   -Hands on experience in Spring Data JPA for integrating spring boot application with relational databases, ensuring seamless data access and manipulation.
   -hands on experience in version control system like Github and Gitlab and SVN
   -Familiarity with object-oriented programming concepts.
   -Ability to write clean, efficient, and well documented code.
   -Communication and Interpersonal Skills
   -Tools Used: Spring Tool Suite, IntelliJ Idea, Postman, SourceTree, Dbeaver etc

EDUCATION

Deenbandhu Chotu Ram University of Science and Technology   Sonipat
B.Tech Computer Science and Engineering   6.42

ADDITIONAL
- Certificate – Coding Ninjas Data Structure and Algorithms with Java.
- Hobbies: badminton, sudoku.
- Have experience in using artificial intelligence tools like ChatGpt4.
